## The Sky Lodge Park City, Utah

Sure, it's got all the amenities you look for in a five-star resort—private decks with cedar hot tubs, 400-thread-count sheets, and wet bars in each of its 22 condos—but the lodge, opening a block from the lifts on Park City's main drag this December, is more about the experience than the accommodations. Fire pits in the lounge, a Zen-inspired meditation room, and the spa's Japanese hinoki-wood tubs will tempt you to spend as much time inside as out on Park City's 3,300 acres of skiable terrain. Complimentary cocktails and hors d'oeuvres are served nightly at five in the Sky Club, which has a sunken bar and fireplace. One-bedroom condos from \$925; [theskylodge.com](http://theskylodge.com)
